Foreword

The South East Community Improvement Partnership (South East CIP) is made up of 20 schools and partners from the statutory, voluntary and community sectors. We are working hard to bring the community together and enrich residents' life, in particular our children's.

We cover the south east area of Portsmouth which includes the wards of Central Southsea, Milton, Eastney and Craneswater and some of Baffins.

This Community facilities directory is a local guide to a range of different services that can be used by children, young people their families in our area.

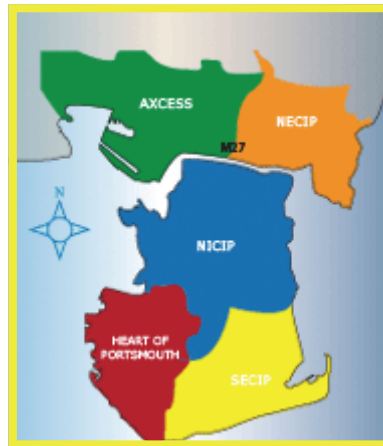

The South East CIP is committed to the highest standards and every attempt has been made to present up to date and accurate information. The details in our community directory are for information and guidance only. We have produced this directory to improve public access to information about services in our community. We have tried to ensure all the information on this directory is accurate and current, but we cannot guarantee this. If you find any mistakes, please let us know. We will correct them as soon as possible. However, this may not be until the next production of the directory.

We cannot control the content of, or take responsibility for, services that are maintained by other organisations represented in this directory. Any information, products or services in this directory are not necessarily endorsed or recommended by us.

South East Portsmouth Community Improvement Partnerships

Making a real difference for children, young people and families in Portsmouth

What is a Community Improvement Partnership?

There are 5 CIPs citywide and each partnership works with local families, organisations and schools to improve outcomes for children and young people growing up in our local communities.

How can my area CIP help me?

- Provide information and support for parents, families and the wider community
- Signpost a range of holiday activities for children and young people in the local area
- Provide links with local services i.e. health, police, businesses, community groups
- Coordinate family and adult learning opportunities
- Promote courses and advice for parents
- Signpost childcare, afterschool clubs and community facilities
- Consult with the whole community and address local need
- Subsidize out of school opportunities for families on low income
- Target and support children and young people with specific needs

South East CIP Team and Office Locations

The South East Community Improvement Partnership is made up of 20 schools and partners from the statutory, voluntary and community sectors. The partnership currently has a team including the Partnership Manager, Project Co-ordinator, Parent Support Advisor and a part time Administrator. The team will be joined by a Boost Activity Co-ordinator and a CIP school Nurse in the new year.
